

## **NEW Reusable Tank Snake**

## 10X REUSABLE

New technology has improved the Diesel Tank Snake 10X!

The previous snake was only good for one use. Now you can remove it from the tank and leave to dry. Then you can re-use it up to 10X. Place it in the sun to speed up the process. Life of the Snake may be reduced by physical contamination of the fuel. Also NEW is a Neodymium Magnet that is placed in each Snake to pick up any free floating metal particles...like Rust!
