

## **CodeRED Emergency Notification System**

The Town of Chapel Hill has instituted [CodeRED](#)-a high-speed, emergency notification service. The town can deliver pre-recorded emergency messages by telephone to targeted areas or to the entire town in case of an emergency that requires immediate action.

Residents who have unlisted phone numbers, have changed their phone numbers or addresses within the last year or use cellular phones as the primary home phone should also register. **All businesses are encouraged to register their phone numbers.**

For more information or to register your business or home phone visit [CodeRed](#) at <http://www.townofchapelhill.org/index.asp?NID=1502>.
