

DESIGN BRIEF BY ROBIN ROGERS

MARCH 2011

A WALK ON THE WILDSIDE...

EVERYTHING ANIMAL

IS HERE TO STAY!!!

Many people love animal prints, including cheetah, leopard, zebra, tiger, and many others. Over the past several years, animal prints have become increasingly popular and more readily available. Animal prints are not a trend anymore, they are here to stay. The main decorating disaster pertaining to animal print is over use. Here are some tips for decorating with animal print in a sophisticated way: Carpets or Area Rugs, Ottomans, Accents Chair, or consider using an animal print or faux fur pillow or throw. When used in taste these items can really set a room off and add a special touch.

"I will be using animal prints in my Designer Showcase room this year too! Don't be afraid of adding a little "Wild" side to your décor. You will love the results," Robin said.

Now that was a fine biscuit. By the way, you look marvelous!

I may not be the biggest dog in the house, or even close, but I still command plenty of respect. I'm a beagle after all and proud of it.

Here is Tilly's Story: I joined the Cooper family a couple years ago. I don't remember my early days, but for several months before I found my forever home, I was literally on my own fighting to survive on the side of the road. A fear of people kept me running from the people trying to help me (the local postman, the Cooper family, etc).

Well, they caught me (or I let them catch me), and I've been living in style ever since...Uttermost style! The only running I do now is to chase my brothers and sisters, or for the treat jar any time it's opened.

DID YOU KNOW: When you buy an Uttermost Product, i.e., mirrors, lamps, accessories, a portion of the purchase price is donated to Dog Rescues!!!
