WINTER TRAINING CAMP @ OFF THE WALL SPORTS

*"Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do."—Pelé*

## The Clinics

Skill Skool Soccer is a revolutionary way of soccer training. The program aims to compliment any player's team training with simple step by step technical exercises that will provide the player with greater ball mastery. The drills provided focus on individual skills and aim to be unique, challenging and entertaining for the player. More than 500 exercises have been created in increasing levels of difficulty. Training will take place this WINTER at OFF THE WALL SPORTS with 8 weekly sessions along with Skill Skool Soccer's HOMEWORK. Utilizing a library of videos demonstrating exercises that done at home will compliment the class and the players continued development.

Additionally, Skill Skool Soccer has recognized the importance of visual feedback in the mastery of specific ball skills. Matt brought this technology to soccer training after observing coaching in other individual sports like golf and tennis where video technology is the norm. Video technology allows the player to see their technique in a way not otherwise possible and, hence, allows for quicker recognition and correcting of deficiencies. Video feedback will be used specifically in striking balls.

*"I am building a fire, and every day I train, I add more fuel. At just the right moment, I light the match."—Mia Hamm*
