 (see instructions)**

This report and the information and data contained herein (collectively, the "Report") constitutes confidential, proprietary information and shall be kept confidential. The disclosure of the Report by any officer, employee, agent, member, affiliate, successor or any other representative of NORA is strictly prohibited without the prior written consent of the information provider.

**INSTRUCTIONS FOR FILING
RETAIL SALES OF OILHEAT
NORA-782B**

General Information

I. Purpose

Use this report to remit the Oilheat research assessment fees on sales to consumers in participating states which do not have the supplier collection system. Those states are Idaho, Indiana, Nevada, Oregon and Washington.

Only retailers who sell to commercial or residential heating consumers need to file. If all of the retail sales of #2 dyed fuel are for non heating purposes, no report is necessary. If the importer of record into the U.S. is not a prime supplier listed on the exclusionary list, that person (importer) must submit the report and fees directly on all sales which would be reported by a prime supplier. If a retailer purchases low sulfur diesel fuel from a prime supplier without the fee, but sells the products as low sulfur heating fuel oil, the retailer must report and pay the fees upon his oil heating sales on Form 782B.

III. What and Where to submit

Submit a Remittance Schedule for each month for each State in which any of the listed products were sold and delivered to consumers for non industrial commercial or residential space or hot water heating.

Mail reports and payments to: NORA:

By Mail: National Oilheat Research Alliance, P.O. Box 826136, Philadelphia, PA 19182-6136

By Courier: PNC Bank, Route 38 and East Gate Drive, Moorestown, NJ 08057

By Wire: International and Domestic Wire Instructions

ABA routing #- 026009593 (If domestic wire use ABA only)

Swift- BOFAUS3N (if international use Swift code)

Bank of America N.A.. 100 West 33rd Street, NY, NY 10001

For further credit to: **This is a very important step DO NOT OMIT**

Intermediary bank

Acct # - 6550113516

Acct name – Merrill Lynch

For final Beneficiary:

Client's acct number # - 71307J82

Clients name - National OilHeat Research Alliance

For additional information on how to file these reports, make payments or program information please phone: NORA (703) 340-1660 or email jhuber@nora-oilheat.org.

IV. When to Submit

Reports must be submitted 25 calendar days following the close of the quarter. (April 25, July 25, October 25, January 25). If payment due is less than \$100, payment may be delayed for one quarter. Postmark date, delivery date to private courier service or EFT date will be treated as date of filing. If the 25th falls on a banking holiday, the due date will be the next banking day. A late payment fee of 5% plus 1% per month interest will be assessed on payments not meeting the above dates.

--- more ---

General Instructions

I. Enter the sales made for heating purposes during the reference month for each state. If product is delivered in a non participating state no report is necessary.

II. Report only the data for the products listed. The fee is not charged on all products.

Definitions

No. 1 Distillate (Dyed) This includes DOE reporting code 467 and Exstars reporting codes 231, 073 and 074. A light distillate fuel oil that has distillation temperatures of 400 degrees Fahrenheit at the 10 percent recovery point and 550 degrees Fahrenheit at the 90 percent point and meets the specifications defined in ASTM Specification D 396.

Kerosene (Dyed) This includes DOE reporting code 331 and Exstars reporting codes 231, 073 and 074. A light petroleum distillate having a maximum distillation temperature of 400 degrees Fahrenheit at the 10 percent recovery point, a final boiling point of 572 degrees Fahrenheit, and a minimum flash point of 100 degrees Fahrenheit. Included are No 1-K and No. 2-K, and the two grades recognized by ASTM Specification D 3699, as well as all grades of kerosene called range or stove oil which have properties similar to No. 1 fuel oil. This product is only subject to the fee when indelibly dyed in accordance with regulations prescribed by the Secretary of the Treasury under section 4082(a)(2) of the Internal Revenue Code of 1986.

No. 2 Fuel Oil This includes DOE reporting code 470, FTA reporting code 228 and Exstars reporting code 226. A distillate fuel oil that has a distillation temperatures of 400 degrees Fahrenheit at the 10 percent recovery point and 640 degrees Fahrenheit at the 90 percent recovery point and meets the specifications defined in ASTM Specification D 396. This product is indelibly dyed in accordance with regulations prescribed by the Secretary of the Treasury under section 4082(a)(2) of the Internal Revenue Code of 1986.

No. 2 Diesel High Sulfur A fuel that has distillation temperatures of 500 degrees Fahrenheit at the 10 percent recovery point and 640 degrees Fahrenheit at the 90 percent recovery point and meets the specifications defined in ASTM Specification D 975. The sulfur level is above than .05 percent by weight. This product is indelibly dyed in accordance with regulations prescribed by the Secretary of the Treasury under section 4082(a)(2) of the Internal Revenue Code of 1986.

Low Sulfur Heating Oil (Dyed) A fuel that has distillation temperatures of 500 degrees Fahrenheit at the 10 percent recovery point and 640 degrees Fahrenheit at the 90 percent recovery point and meets the specifications defined in ASTM Specification D 975. The sulfur level is below .05 percent by weight. This product is indelibly dyed in accordance with regulations prescribed by the Secretary of the Treasury under section 4082(a)(2) of the Internal Revenue Code of 1986.

Dyed ULSD This includes all #1 or #2 distillate product with a sulfur content of less than 15ppm.

Dyed Biodeisel This includes any biodiesel described by ASTM 6751 suitable for use as heating oil.

Pass Through of Fee

On sales to consumers who will use the fuel for non-industrial commercial or residential space or hot water heating in participating states the fee is due. This fee should not be passed through or otherwise required to be paid by residential consumers of Oilheat. On sales to consumers who are not using the fuel for Oilheat, the fee is not due and should not be billed to the consumer.

Exempt Use

The fee is only due on fuel used for **Oilheat** which is defined in the law as being “used for nonindustrial commercial or residential space or hot water heating.” The fee is due on sales to consumers who use the fuel to heat space, whether by forced air or boilers, or water. Among the included uses are residential (private and commercial), retail shops or malls, institutions (including hospitals and dormitories) and rental facilities (hotels, assembly halls and offices). Exempt uses include fuel used by vessels, railroads in trains, utilities for power generation, farmers in agriculture production, industrial use in equipment and the military.
