Shawnti Small (28 and a retail store manager) and Andrew Fray (28 and a retail assistant manager) started training as managers at Target on the same day and got placed at the same store, where they worked together for almost two years. They became great friends and often made excuses to stay late at work and chat in each other's offices. When Shawnti got promoted and had to change store locations, Andrew finally asked her on a date. After a year of dating, Andrew proposed. They spent the next year and nine months planning an elegant wedding in the Bay area, where most of Shawnti's family lives. The couple wanted a quintessential San Francisco wedding to give their out-of-town guests a real feel for the city and picked the The James Leary Flood Mansion, from which they could see many of the city's landmarks. —JD
