ADDENDUM TO:	Fire Protection Maintenance & Annual Fire Hydrant Flow Testing
BID NUMBER:	13-07
BID DUE DATE:	Thursday, March 27, 2014 at 10:00am
connection with the subject n	is an integral part of the Bid file under consideration by you as a bidder in natter identified above. For the purpose of clarification the following ons and replacements noted below have been made to the Bid and have bears the above title.
Bid Proposals submitted shall c issued addendums.	onform to these additions and modifications noted herein and including all
REQUEST/QUESTIC	N/CLARIFICATION
Annual Reports attache	d for review per request(s)
Note: To qualify your proposand returned to this office with	sal, of which this addendum becomes a part, this form must be completed the proposal.

A. No. of Systems 25 Make & Model			
B. Was the date of the gauge(s) checked, since gauges are required to be tested with a calibrated gauge or replaced every five years?	-		
If tested with a calibrated gauge and the gauge was not within 3% over the full scale they must be recalibrated or replaced	✓		
C. If applicable, have any dry type heads more than 10 years old had a representative sample tested		✓	
D. Have all known and readily apparent antifreeze systems been tested?	_	$\overline{\checkmark}$	
E. Date antifreeze systems were tested	-		
F. The antifreeze tests indicate protection to temperature: Sys. 1 Sys. 2 Sys. 3 Sys. 4	Sys.5		
G. Did alarm valves, water flow alarm indicators and retards test satisfactorily?	$\overline{}$		
ALARMS	YES	N/A	NO
A. Did the water motor(s) and gong(s) operate during testing?		V	
B. Did the electric alarm(s) operate during testing?	-Ħ	v	
C. Did the supervisory alarm service test satisfactorily?	- M	Ħ	
SPRINKLERS - PIPING			_
A. Do sprinklers generally appear to be in good external condition?	Ų.		
B. Do sprinklers generally appear to be free of corrosion or loading and visible obstructions?	- 🗹	m	
C. Are extra sprinklers available on the premises?		Ħ	
D. Does the exterior condition of the fire sprinkler system appear to be satisfactory?	- <u> </u>	П	V
E. Does hand hose on the sprinkler system appear to be in satisfactory condition?	· 🗹	$\overline{\Box}$	
THE INSPECTOR SUGGESTS THE FOLLOWING IMPROVEMENTS,			
HOWEVER, THESE SUGGESTIONS ARE NOT THE RESULT OF AN ENGINEERING SURVEY:			
there is no sprinkler coverage in electric rooms, and telephone rooms 8" valve in water heater room leaks badly wh and needs to be replaced 4" piping in the field storage room is highly corroded and needs to be replaced most of pig		-	
, , , , , , , , , , , , , , , , , , , ,	ilig iii e	xposec	4
areas around stadium is moderately corroded no sprinkler coverage in suite us124 bathroom
