## United Way Names Company of the Year

Kramer & Leonard Office Products was named "Company of the Year" by United Way of Porter County. The company supported the United Way by making a donation for every carton of copy paper sold. Cartons and reams are co-branded with the United Way logo, allowing for a broader reach of brand awareness throughout departments at participating companies. To date, more than 75 organizations are on board with the promotion throughout Northwest Indiana, including colleges, banks and city administrations.

*Congratulating Greg and Mary Fox, owners of Kramer & Leonard (center), are Clare Baumgardt, Board Chair of Indiana Association of United Ways (far left); and Sharon Kish, President of United Way of Porter County (far right).*

## Donation Benefits Breast Cancer Screening

St. John resident Shelley DeYoung is a two-year breast cancer survivor. She credits her recovery, in part, on her healthcare team at Community Hospital and the Women's Diagnostic Center in Munster, along with support from her employers, Illiana Heating and Air Conditioning. To honor their customer service representative, Sue and Tom Krygsheld of Illiana Heating and Air Conditioning held a fund raiser during the month of October to help other local women – those without insurance and who otherwise couldn't afford them – receive diagnostic mammograms at the Women's Diagnostic Center in Munster.

*Pictured from left to right are Shelley De Young, Tom Krygsheld, Sue Krygsheld and Mary Nicholson, M.D., fellowship-trained, dedicated breast radiologist on staff at Community Hospital and regional director of breast imaging services for Community Healthcare System.*
