## The Seder plate

### THE SEDER PLATE HOLDS MANY DIFFERENT THINGS.

Egg. The reason why we have an egg which is usually burnt on our seder plate is that it is a symbol of strength. The more you cook at egg the harder it gets. Just like the Jewish people who even though they were enslaved they still stayed strong

Bone. This is to remember the Pesach offering.

Charoset. This is very yummy even though it is suppose to look like cement it is filled with all different types of yummy things. We have it to represent the cement that Jewish people used while making pyramids.

Bitter Herb. This is to show that we were very sad and upset while we were slaves in egypt. We have it because when we eat it we are supposed to cry just like our forefather in Egypt.

A vegetable. This is placed on the seder plate so we can later put this in the salt water and remember the tears.

Horse raddish. This is also to make us cry just like our forefathers in Egypt.

## QUIZ QUESTION

**Who do we open the door for during the seder?**

**How many parts of the seder are there?**

**Whos' heart did hashem harden?**
