

COLIN GAWEL

CHEMOTHERAPY

The Artist: Up until this debut solo release, Colin Gawel has devoted his musical talents to writing and performing with Indi-rock stalwarts Watershed, who have a resume longer than Interstate 70 which knives through Colin's hometown of Columbus, OH. Teaming up with world class recording engineer Mike Landolt (Maroon 5, O.A.R.) in 2005, the pair concentrated on a completely new sound for Colin focusing more on his weighty lyrics and his earthy vocals and less the bombastic rock approach Watershed had nailed so perfectly in the past. Bypassing conventional rock wisdom, the pair have amassed more than a full CD's worth of memorable music but will only be releasing the tracks in a single's format roughly six months apart.

"We both feel strongly that all of these songs deserve to have 1's and 2's next to them on the sleeve. Besides, who has time to listen to 15 new Colin Gawel tunes? Hell, even I don't"- Colin

The Label: Mike Landolt, founder of Curry House Music, has recorded hundreds of projects and has been involved with more than his share of hits. The idea for Curry House Music is a simple one:

"Most labels throw twenty songs at the wall to see what sticks, I am going to record twenty and release only the very best. I will promise not to waste your time if you promise to give me your ears for 10 minutes a couple times a year. Deal?"- Mike Landolt

Track List:

1. *Chemotherapy*
2. *The Words We Say*
3. *Lonely Bones*
4. *Chemotherapy (acoustic)*
