

Series: Just Google It  
Title: What Makes You So Special  
Text: Galatians 1:1-9

### **This Series**

We often use Google to discover truth.

- Discovering biblical truth is an exercise in both biblical and systematic theology.
  - Biblical Theology: What does a specific text say about a topic in only that text?
  - Systematic Theology: Synthesizing and harmonizing all the biblical theology associated with a topic.
- This series helps us practice systematic theology on some challenging topics.

Once we discover the truth, we must be careful not to drift from that truth.

### **The Real Thing**

Jesus + nothing = gospel

- Religion at its core is do's.
- The gospel at its core is news.

Every faith says to do something, but Christianity says something has been done.

### **What Is So Special**

How is Christianity shaping the behavior of man in a unique way?

1. The focus is God, not you.
2. The motivation is love, not fear.
3. The result is humility and confidence, not pride and despair.

### **The Faith**

Be sure you start with the gospel, and then stay with the gospel.
