PERSONAL STATEMENT

“

I am a passionate NYC based industrial designer. I enjoy clean, smart and effective design. I believe I have considerable creative ability and technical skill, as well as an eye for artistic beauty.

”

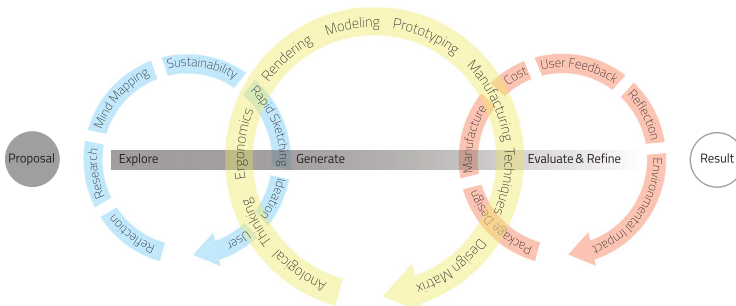

EDUCATION

2010 - 2013 **B.S. {3.5} Industrial Design
Art Institute of Philadelphia
Best Portfolio IDT • Class of 2013**
Studied all aspects of Industrial Design including: product design, furniture design, metal / plastic / wood studios, model making, fabrication techniques, presentation drawing, manufacturing techniques, environmental design, packaging design, human factors and ergonomics.

EXPERIENCE

Apr 2013 - June 2013 **Second Stroke Motorcycles
Customs Designer - Internship**
• Worked along side the design/shop team
• Contributed creative input when required

DESIGN PROCESS

Over the course of my student career I have completed many projects of various caliber, but in all instances I have continued to follow and improve my methodology and approach.

WHY WE SHOULD WORK TOGETHER

- Ability to conceptualize and create through use of practical knowledge and artistic skill
- Ability to work well within a team of creatives
- Thorough understanding of the principles of design and design theory
- Knowledge of manufacturing and fabrication techniques with an “engineer’s eye” for function
- Incredible technical skills through the use of computer aided design
