As noted in the poverty guidelines Federal Register notice, there is no universal administrative definition of "income" that is valid for all programs that use the poverty guidelines. The office or organization that administers a particular program or activity is responsible for making decisions about the definition of "income" used by that program (to the extent that the definition is not already contained in legislation or regulations). To find out the specific definition of "income" used by a particular program or activity, one must consult the office or organization that administers that program.
