Kennebec Land Trust Lyceum The Flora of Maine

Lessons in Ecology, Botany and History Ladd Recreation Center 7:00 - 8:30 pm

The Kennebec Land Trust, the Wayne Area Garden Club and the Ladd Recreation Center are co-sponsoring a community lecture series on the Flora of Maine. These programs will be held at the Ladd Center on the Gott Road in Wayne during March and April, 2004. * Please join us for these excellent presentations and the opportunity to meet your friends and neighbors in the region. Members and Directors of the sponsoring organizations will be attending the series and there will be time to visit over refreshments after each program. This community program is supported by Robert, Gloria and Lincoln Ladd.

March 11th Introduction to Maine's Flora: an Ecological and Geographical Perspective Dr. Susan C. Gawler, Plant Ecologist

Topics:
