

# Man Repeller: Seeking Love Finding Overalls

By Leandra Medine

Not even a year out of grading from the New School in New York City with a degree in Journalism, Leandra Medine started a fashion blog that changed the way women viewed personal style and it's sometimes uncertain effects on the masses. Now at only 26, Medine has been featured in Forbes "Top 30 under 30" as one of the world's most influential trendsetters. She is also the author of her first book *Man Repeller: Seeking Love Finding Overalls*.

In a collection of laugh-out-loud, awkward encounters, acclaimed blogger Leandra Medine recounts her tales of growing up in New York City through the lens of her sometimes avant guard and always "man repelling" sartorial choices.

We travel with Leandra from her childhood bedroom in New York City to her small apartment in Paris, where the always-stylish fashionista comes to her own and begins to embrace her individuality. With her signature sarcasm and blunt honesty we are thrown into a messy love story that started out with a pair of tube socks on the night she lost

her virginity. This hilarious story will not only make you reflect on your own personal style and it's importance to your being, it will also have you contemplating whether or not to buy denim overalls.

"Leandra wears her wit as well as she wears her denim bib overalls. But at being repellent, she is a colossal failure." --**Laura Brown, Executive Editor, Harper's BAZAAR**

"Leandra is a sick, twisted fashion addict and guess what? There is no rehab. As this book shows, she is doomed to be stylish and groovy and hilarious for the rest of her life." --**Simon Doonan, Barneys New York ambassador and author of *The Asylum***

"Not only do I agree with how Leandra dresses, but I also agree with everything she says in these brilliant stories. She's a terrific writer." --**Joan Rivers**
